Dear Chris

## **NHS England/NHS Improvement Covid 19 Data Dissemination Register**

Please accept my sincere apologies for the delayed response to your letter dated the 21<sup>st</sup> July 2021. As you know and appreciate, the intention was to publish the register which details the dissemination of personal data relating to Covid much earlier this year. We have unfortunately been delayed due to priority work supporting the vaccination programme which had to take priority.

I am however relieved and extremely pleased to confirm that the register will be sent to our web team tomorrow in order that it can be published as soon as possible. Our intention is to update the register on a monthly basis going forward to ensure transparency on data releases.

We very much appreciate the support you have provided to get us to this point, albeit that we have struggled with competing priorities on the vaccination programme itself.

If you have any questions or if you feel there are further improvements, we can make to enhance transparency, please don't hesitate to come back to me.

Kind regards

Wendy Harrison LLM, PG Cert HCL  
Senior Lead – Data Governance / Deputy Head of Corporate Information Governance  
NHS England & NHS Improvement
