

Case Study – Patient Advocate Stories

Claire Wiseman
Patient advocate, use MY data

The use of my data is important to me, because I think I've got a moral obligation to do what's right for me, my family, my friends, society - current society, future society.

We can make a difference. It benefits everybody and hurts no-one.

We are building an online library, where the patient voice is heard direct, talking about the rewards of using their data
