

Case Study - Patient Advocate Stories

Shrenik Shah & Nilam Shah
Patient advocates, use MY data

I'm Shrenik Shah and I'm here with my wife Nilam. I had undergone total laryngectomy 19 years ago; this is the 20th year after cancer.

Life after cancer is excellent and Nilam and I don't fear but try to ignore cancer and fight cancer like anything. You have to be like a fighter of the Air Force One.

Please use my data for gifting a better life to the cancer patients and your near ones and dear ones.

If you are interested in reading more about my experiences please go to: <http://www.shrenikshah2110.com>

We are building an online library, where the patient voice is heard direct, talking about the rewards of using their data
